

Does it sometimes feel like politicians are *just not listening*?
Are you tired of unopposed races and no choices at election time?

With Voter Choice we can do something about it!
MORE VOICES, REAL CHOICES
for a healthy democracy & secure future!

The Voter Choice ballot referendum will:

- Empower voters with more choices – and the freedom to vote their values.
- Insure that the outcome of elections reflects voter sentiment.
- Eliminate fear of “spoilers” taking votes away from other candidates.
- Help voters hold elected officials accountable.
- Put critical issues and solutions back on the agenda.

Restore power to the voter!

Voter Choice will change the way votes are counted in statewide, legislative, US congress and senate races in MA. It allows voters to rank candidates, rather than just chose one. If your 1st choice comes in last, your vote is reassigned to your 2nd choice, like, an “instant run-off” election. It eliminates the fear that voting for the candidate you strongly support could help a candidate you strongly oppose.
